Deep C Meter

Warranty

The following terms and conditions apply to these Deepwater products: ROV II Tip Contact Probe, CP Gun, and the Deep C Meter.

When operated strictly in accordance with the supplied operations manual, Deepwater Corrosion Services, Inc. warrants:

1. The entire instrument package against defective workmanship resulting in an operational failure for 12 months from original date of purchase as it appears on the factory invoice from Deepwater Corrosion.
2. Reference electrode element calibration is guaranteed for 90 days from date of purchase, within the limits defined in the equipment operations manual.

All operations Manuals are available on our website:

www.stoprust.com

Replacement Claims

In order to claim on warranty:

1. Contact Deepwater Corrosion and ask for Customer Service Department extension 222.
2. If instructed by Customer Service representative equipment must be returned to Deepwater Corrosion at purchaser's expense. When claim is validated, Deepwater Corrosion will reimburse shipping cost, and return unit to purchaser in full working condition within 7 business days.

If claim is not validated, a report will be sent to customer for discussion.
